United Way of Cayuga County
Dear United Way Supporter:

Typically, this letter will highlight and thank all of you for your generosity and support during the past year—which the United Way Board of Directors and I are extremely grateful for. You have and we know going forward, you will continue to care deeply about this community and support it the best way that you can. Yet, as I write this letter to all of you, I too am wondering about what our new normal might look like moving forward.

None of us knows how and when this will end. It’s even harder to predict when we will even feel that the crisis is “over” and behind us. We are already seeing the confirmed cases of COVID-19 waning and people clamoring to return to work, school, and life in general. In the wake of all of this, however, there will be lots of collateral damage, that will affect all of us be it personally, professionally, or in ways we have yet to gauge.

But this is what I know. As you read through this annual report, you will be reminded of how this community comes together to take care of one another. I hope that you will be reminded that during difficult and uncertain times that this type of uncertainty brings us closer as a community, as a state, and as a country. Tough times have shown us time and time again, how truly connected we are and how much we need to support one another.

Yes, times will be different moving forward. Fundraising will prove to be more difficult and the need for support will continue to rise. And, what I can promise is that your United Way will continue to serve and support as we have for almost 100 years. How we respond may change but our mission remains ever true.

Thank you again for your support. Stay safe, stay healthy and take care of one another.

Sincerely,

David S. Gould,
Board President

Harold and Mary Leonard’s legacy extends beyond our digital records. For more than 20 years, they were Everett Society donors who valued the importance of generosity and community support. Upon their passing, Harold and Mary left a portion of their estate to the United Way of Cayuga County to continue supporting our community.

Below is a portion of the letter their son David wrote:

Raised during the Great Depression, Harold and Mary lived modest lives. Their frugality led to an ‘overflowing cup’ from which they poured out generously to their church, charities and other organizations they believed in. Mary had an outsized, compassionate heart and throughout her whole life felt called to serve those who she believed were lacking hope. All of the charities to which she designated bequests have missions to help underserved people better their lives, to bring about a more peaceful and just world, or to help the CNY communities that they called home.
Gifts to the United Way of Cayuga County throughout 2019 positively impacted more than 31,700 residents—that is 41% of our community. United Way funding touches individuals through all stages of life and from every corner of Cayuga County; regardless of socio-economic backgrounds.

While funded programs and services are available to all, many of those seeking assistance are our ALICE families—Asset Limited, Income Constrained, Employed. ALICE accounts for 28% of our community. ALICE families are often doing all of the right things, yet, they are living paycheck to paycheck and are one emergency away from falling into poverty. This is where your United Way steps in—your gifts during the annual campaign support programs and services in the areas of education, health, financial stability, and safety net needs.

### Partner Agencies & Focus Areas
